

Not just a pretty face.

A beautiful face is just the beginning – let Flakeboard's *Design Symmetry* open the door to an interior that makes a lasting impression.

Flakeboard offers hundreds of melamine-surfaced composite panel options to help you make a custom-designed impression.

To develop our *Design Symmetry* program, we've selected over 50 woodgrain and solid colour melamines to match rigid thermofoil from the leading suppliers.

Start by matching your Flakeboard melamine design to your rigid thermofoil choice using *Design Symmetry*. Apply it to our renowned **Superior Plus MDF**, foremost on the market for superior machinability and routing capabilities. Then, complete your project using your melamine choice thermally fused to our premium particleboard and FIBREX® thin HDF, and the detailing possibilities are limitless!

Creating a lasting impression is no mystery... Flakeboard's *Design Symmetry* is the answer to a completely beautiful look.
